PROFESSIONAL SUMMARY

Ambitious Full-Stack Web Developer passionate about building user-centric applications and automating workflows. Proficient in both front-end and back-end development, I specialize in creating scalable and efficient solutions. With a keen interest in machine learning and automation, I stay ahead of industry trends to drive innovation and deliver impactful results.

WORK EXPERIENCE

TAF Technology-(Remote)

Dhaka, Bangladesh

Web Developer

Nov 2025 – Present

- Developed and maintained web applications using React.js, Node.js, Express.js, and Tailwind CSS.
- Built React Native mobile applications with optimized performance and seamless API integration.
- Collaborated with designers and backend teams to deliver scalable and efficient features.
- Integrated RESTful APIs and optimized frontend performance for better user experience.
- Worked with Git, GitHub, and project management tools to follow agile development workflows.
- Contributed to debugging, bug fixing, and improving UI/UX across web and mobile platforms.

Echobyt

Dhaka, Bangladesh

Web Developer

Jan 2023 – Jan 2025

- Engineered dynamic and responsive frontend interfaces utilizing React.js, Next.js, and Tailwind CSS to enhance user engagement.
- Architected and implemented RESTful APIs using Node.js and Express.js, integrating with MongoDB and Supabase for robust data management.
- Streamlined authentication and authorization processes by implementing JWT and Firebase.
- Employed Git and GitHub for version control, ensuring smooth collaboration and continuous integration across deployment platforms like Vercel and Netlify.
- Leveraged TypeScript to reduce runtime errors and improve codebase maintainability across full-stack applications.

EDUCATION

Daffodil International University

Dhaka, Bangladesh

Bachelor of Science in Computer Science

Sep 2021 – Sep 2025

- **Honors:** CGPA: 3.10/4.00
- **Courses:** Data Structures & Algorithms, Machine Learning, Computer Networks, Object Oriented Programming, Design Patterns, Database Management Systems, Operating Systems, Software Engineering, Web Development
- Completed comprehensive Computer Science curriculum with focus on modern development practices
- Specialized in full-stack development, software design patterns, and system architecture

Bandarban Cantonment Public School And College

Dhaka, Bangladesh

Higher Secondary Certificate in Science

Jun 2018 – May 2020

- **Honors:** GPA: 4.55/5.00
- **Courses:** Mathematics, Physics, Chemistry, Biology, Information & Communication Technology
- Focused on mathematics, physics, and computer science fundamentals

PROJECTS

IMSCON – Event Networking Platform

Project Developer

Jan 2024 – Present

- A comprehensive monorepo-based networking platform for conferences and exhibitions. Includes web and mobile apps with role-based access, event management, real-time chat, user networking, social feeds, and administrative dashboards. Built with React, TypeScript, Tailwind, Supabase, and Expo.

HOMATE – AI-Powered Hotel Operations & Guest Communication Management Platform

Project Developer

Jun 2024 – Present

- A sophisticated hotel management system designed to revolutionize operations through AI automation and seamless guest communication. Features include AI-powered guest messaging, phone call transcription, smart ticketing, PMS integration, staff management, and real-time analytics. Built with React, TypeScript, Supabase, AWS, and React Native.

SkillConnect – Skill Hiring Platform

Project Developer

Jun 2023 – Present

- A comprehensive platform built to connect individuals seeking to hire or be hired for various skills, facilitating discovery and collaboration within a structured environment.

Unichat – University Student Chatting and Social Media Platform

Project Developer

Sep 2023 – Present

- A social media and communication platform tailored for university students, enabling real-time chatting, content sharing, and community engagement.

SKILLS, LANGUAGES, INTERESTS

- **Languages:** English (Professional Proficiency), Bangla (Native)
- **Programming Languages and Software Design:** Python, JavaScript, TypeScript, Java, HTML, CSS, Design Patterns, Scalable Architectures
- **Full Stack Development:** React.js, React Native, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux, Node.js, Express.js, RESTful APIs, MongoDB, Mongoose, JWT, Firebase, Appwrite, Supabase, Git, GitHub, Postman, Vercel, Netlify, Responsive Web Design, API Integration, CRUD Operations
- **Additional Skills:** Power BI, Pandas, NumPy, Jupyter Notebook, Figma, Canva, Photoshop, Microsoft Office Suite
- **Strengths:** Project Management, Public Relations, Teamwork, Time Management, Leadership, Effective Communication, Critical Thinking
- **Interests:** Traveling and exploring new cultures, Experimenting with cutting-edge technologies, Tinkering with hardware and software systems, Pet care and animal welfare (particularly ducks and cats), Innovative farming techniques (aeroponic and hydroponic systems), IoT and home automation projects
